## SUMMARY

---

I am a driven Data Analyst which is fueled by the transformation of messy data into key insights. Proficient in SQL, Excel, Power BI and Python libraries such as Pandas and Matplotlib which I use to create dashboards, identify trends, and support teams in which we make better, data based decisions. I bring to life every dataset's story.

## TECHNICAL SKILLS

---

**Programming Languages:** SQL, Python

**Tools/Visualization:** Power Bi, Excel, GitHub, VS Code, Figma, SSMS, Jupyter Notebook

## PROJECTS

---

### City Traffic Accident Analysis Dashboard

- Peak accident times: Morning & evening rush hours.
- Weather factor: Accidents increase during rainfall.
- Vehicle type: Cars & two-wheelers most frequently involved.
- High-risk zones: Specific city junctions identified.

SQL, Excel, Power BI

### Fitness Dashboard – Power BI

- Client overview: total clients, active trainers, revenue & expenses.
- Financial trends: monthly revenue, expenses, and profit.
- Membership breakdown: status of Platinum, Gold, Silver memberships (active vs. expired)
- Individual client progress tracking.
- Identified months with highest and lowest registrations.
- Displays dashboard's last refresh timestamp for accuracy.

Excel, Power BI

## EDUCATION

---

**Bachelor of Computer Applications (BCA)**  
*Raniganj Institute of Information Technology - Raniganj, India*

Sep 2021 – Sep 2024 - **CGPA: 7.73**

**Higher Secondary**  
*Raniganj Marwari Sanatan Vidyalyaya - Raniganj, India*

May - 2021 - **57%**

## CERTIFICATIONS

---

- [Career Essentials in Data Analysis by Microsoft and LinkedIn](#)
- [Deloitte Australia Data Analytics Completion Certificate](#)
