- JavaScript
- MongoDB
- GitHub
- PDF to Word
- HTML/CSS
- NextJs
- Angular
- Google Sheets
- React
- ExpressJs
- Java
- Email Handling
- NodeJs
- Tailwind

WORK HISTORY

Intern, 11/2023 - 05/2024

EyeTGlobal - Asansol, India

Interned at EyeTGlobal, completing MERN stack development. Worked on full-stack applications using MongoDB, Express.js, React, and Node.js. Collaborated on real-world projects, sharpening both front-end and back-end skills.

PROJECTS

• **Hire Have - Job Portal (MERN Stack)** - [Link](#)

Developed a job portal website using the MERN stack, focusing on large-scale application architecture, API integration, and complex data handling. Overcame challenges in data storage and display, enhancing my full-stack development skills.

• **Thoughts Unbound - Blog Website (React, Appwrite)** - [Link](#)

Built a blog website using React and Appwrite, focusing on third-party service integration. Resolved challenges in handling user unique IDs, improving my backend service skills.

• **NextJs Auth - Full-Stack Authentication (Next.js, Node, Express, MongoDB, TypeScript)** - [Link](#)

Implemented secure authentication with Next.js, enhancing web security skills. Overcame challenges with routing in a full-stack setup.
